

# SOLENOID VALVES . . .

## SERIES 58

Smallest in the line — low cost, low power consumption, high performance. Ideally suited for solid state controls.

2-WAY LEAD WIRES

2-WAY DIN CONNECTOR

3-WAY LEAD WIRES

3-WAY WITH MANUAL OVERRIDE DIN CONNECTOR

## SERIES 15

The little black box — magnetic components encased in epoxy for durability and reliability. Interior parts are stainless steel and anodized aluminum.

MALE EXPORT STYLE DIN CONNECTOR

CONDUIT LEAD WIRES

3-WAY W/FEMALE DIN CONNECTOR

3-WAY LEAD WIRES

## SERIES 50

Our original mini — engineered for space economy without sacrificing performance. Typical applications include medical, analytical instrumentation.

2-WAY CONDUIT

2-WAY GROMMET

3-WAY GROMMET

3-WAY CONDUIT

## SERIES 30

Complete range of two-way and three-way valves particularly suitable when cost and size are major factors. The bodies are constructed of brass (2-way normally closed, brass or stainless steel is standard).

2-WAY CONDUIT

2-WAY GROMMET

3-WAY GROMMET

3-WAY CONDUIT

## SERIES 20

A complete line of two-way and three-way valves with a great selection of options. Exceptional proven performance. The standard in the field.

2-WAY CONDUIT

2-WAY GROMMET

3-WAY GROMMET

3-WAY CONDUIT

## SERIES 70

**SUPER VALVES**  
2- and 3-way valves having ratings that formerly required valves of much greater size.

2-WAY CONDUIT

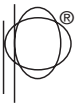

2-WAY GROMMET

3-WAY GROMMET

3-WAY CONDUIT

# SOLENOID VALVES . . .

**EXPLOSION PROOF** For hazardous locations proven and tested to meet UL and CSA requirements. Safe and continuous operation at maximum pressures.

SERIES E80  
INTERNAL PILOT PORT

SERIES E50  
2-WAY

SERIES E20  
3-WAY PIPED EXHAUST

SERIES EH20  
HIGH PRESSURE IMPACT TYPE  
2-WAY NORMALLY CLOSED

SERIES EH20  
HIGH PRESSURE IMPACT TYPE  
3-WAY NORMALLY CLOSED

SERIES EH20  
HIGH PRESSURE IMPACT TYPE  
2-WAY NORMALLY OPEN

**HIGH PRESSURE** Super high pressure ratings with bubble tight sealing. Ratings to 3000 psi.

SERIES EH20  
HIGH PRESSURE EXPLOSION PROOF

SERIES 20  
3-WAY NORMALLY CLOSED

SERIES 20  
2-WAY NORMALLY CLOSED

**HIGH FLOW** Two-way, large orifice valves for dump or quick fill.

SERIES 70 HIGH FLOW  
2-WAY NORMALLY CLOSED

SERIES 80

SERIES 80  
INTERNAL PILOT

SERIES 80  
DIRECT LIFT
